About Nicaragua

Nicaragua is the second poorest country in the Western Hemisphere. By bringing people together, the hope is to empower and encourage local church leaders, business leaders, ministries, and schools to see transformation in their community. Areas of concentration include: running small businesses, running a chicken farm to donate eggs to school children, teaching English, focusing on alcohol rehabilitation, running a pineapple farm, operating a Bistro, community outreach, and home visits, to name a few.

Possible Trip Highlights

Help with upkeep and possible construction for buildings on a 7-acre working farm, which also serves as an alcohol rehabilitation clinic. Work alongside the locals, building relationships and helping maintain the farm. Work on a 29-acre pineapple farm. Hear the testimonials of those who have put their faith in the Lord despite their situations and pasts. Encourage and spend time with children who live near the city dump by feeding them, playing games, and teaching them stories from the Bible. Home visits are common, as well as visits to churches and dinners in local homes. Participate in community projects in Masatepe and Ticuantepe, working with local schools, churches, and families.

Personal & Spiritual Growth

Each night, the team, led by the facilitator, will dissect the day: what was seen and experienced, how it made you feel, and what God was showing you. A devotional has been written specifically for this mission trip to help guide the process of opening your heart, exploring your faith, and developing a closer relationship with Jesus.
